

## **Report for Parish Councils - January 2019**

### **HOUSING STRATEGY**

South Cambridgeshire District Council and Cambridge City Council are working on a joint housing strategy. Their plans are out for consultation, so this is your opportunity to have your say. You can find the consultation documents at: [www.scambs.gov.uk/housing/housing-strategy-consultation/](http://www.scambs.gov.uk/housing/housing-strategy-consultation/)

### **A1307**

Work is due to start on road safety improvements on 14 Jan. The first job will be on the dual carriageway passing Dalehead going towards Linton. The inside lane will be hatched off making it a single lane up to the entry to the Dalehead Foods, this is designed to improve safety entering and leaving the plant. The next step will be to make the inside lane from Dalehead to the Village College traffic lights a bus lane.

Over the next two years a programme of improvements will be implemented. Not all of them are fully worked up yet but will include a roundabout at the Bartlow crossroads, upgraded traffic lights, new traffic light controls at Linton High Street and the Hildersham crossing, upgraded cycle paths and further bus priority measures.

Full details can be at:

### **2050 Zero Carbon Target**

In October last year, world-leading scientists gave their clearest warning yet about the impacts of climate change if we do not make urgent changes to reduce greenhouse gas emissions. We are already feeling the effects in the UK of increased intensity and frequency of storms, flooding and heatwaves. Water scarcity and air pollution are also moving up the agenda. South Cambs want to show climate leadership and duly passed motion (supported by all parties) in November supporting the transition to "Zero Carbon by 2050" in the next Local Plan.
