

West Wickham Neighbourhood Plan 2019 Green Spaces Consultation Results

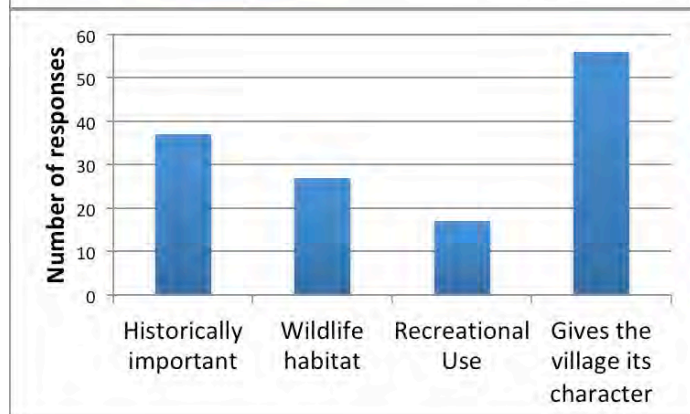

Previous village questionnaires have indicated that the rural nature of the village, green open spaces and views to and from the surrounding countryside are valued. The aim of this questionnaire was to find out what the community think about the Neighbourhood Plan giving extra protection to green spaces and sites where the countryside meets built-up areas.

The survey was distributed with the September edition of the Village Voice community newsletter and delivered to every household in the Parish. 56 survey forms were returned representing about a 33% response rate.

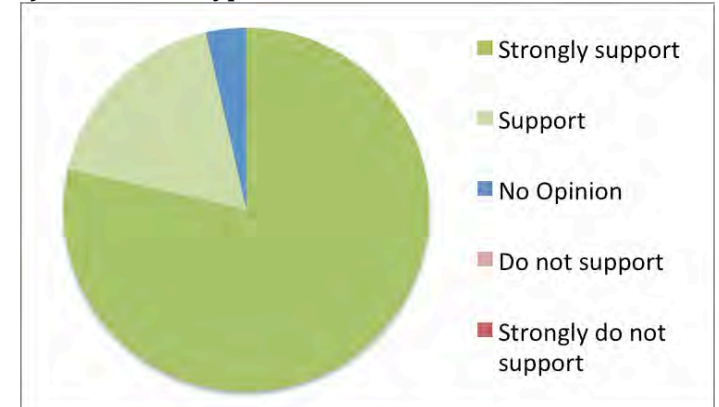

Q1) Do you support protecting the green spaces in Burton End?

A) The historic village green

B) In front of Maypole Croft
